ABOUT COMPANY

Tech Export Services Corridor (TESC) is an export support organization for Iranian high-tech and medium-tech companies. TESC facilitates the export process for Iranian manufacturers by providing services in the areas of marketing, consultancy, and international alliances. TESC chooses producers providing the highest quality products based on Export Readiness Assessment (ERA) basis and supports competent manufacturers for export. Therefore, TESC is capable of certifying the quality of products and reliability of Iranian producers in high-tech fields and creating a trustful environment for collaboration between Iranian and foreign companies.

Hirad Smart Trading Co. is a spin off from Tech Export Services Corridor - under the supervision of vice-presidency for science and technology - and was founded in 2015 in order to help businesses to become more competitive in international markets. Our mission is to create and develop strong businesses through advisory and capacity building services. We support entrepreneurs in all industries and at all stages of development. Hirad team has a long term experience in assessment of companies for export, internationalization and also organizing international matchmaking events.

HEDCO

Hampa Energy Engineering
and Design Company

Website: hedcoint.com

Email: public@hedcoint.com

Phone: +98 (71) 3213 6128

ABOUT COMPANY

Hampa Energy Engineering and Design Company (HEDCO), is a first grade EPC Contracting company in the field of Oil, Gas and Petrochemical industries with long term presence in this field.

HEDCO provides the following services to its customers:

- Market Study and Feasibility Study
- Project Management (General Contracting , MC)
- Process Selection
- License and Know How Arrangement
- Plant Optimization
- Engineering (Basic and Detail)
- Procurement services
- Construction Management and Construction Supervision
- Site Technical Assistance

HEDCO is a technology and knowledge based company and has developed its own technology and patents for the following items:

- Ammonia production unit
- Cryogenic storage tanks
- Catalytic Reformers
- Process Heaters

HEDCO with its available man-power, can perform mega projects in international scales.

ABOUT COMPANY

KARAJET® is a highly vibrant, innovative company and pioneer manufacturer of Ejector and Vacuum System in Middle-East. Since 1995 our company is raring to go by innovative solution for every problem, with hand-picked elites from highly venerable academic sources. Due to having an insatiable appetite to remain original over time, we have managed to develop endogenous technology for designing and manufacturing several types of mechanical equipment for process industry with substantial application in Oil, Gas, Petrochemical, Chemical, Food and Beverages, Steel and Alloys, Power and other related Industries.

PRODUCTS

Mechanical equipment such as:

- Ejector
- Vacuum system
- Silencer
- Desuperheater
- Static Mixer

Kharazmi Technology
Development Company

PRODUCTS

- Secondary and Auto-thermal Reforming
- Pure Nitrate and Sulfate Crystal of Base Metals
- Catalyst Handling (Unloading, Inspection and Loading)
- Recovery, Regeneration and Rejuvenation of Spent Catalysts
- Engineering and Procurement Services
- Simulation and Modeling of the Catalytic Process
- Low Temperature Shift Catalysts
- Pre-Reforming Catalysts
- Hydrodesulfurization Catalysts
- H₂S Removal Adsorbent
- Methanation Catalysts
- Methanol Synthesis
- Pure Base Metals Oxide Powder
- Highly Pure Base Metals Ingot
- DRI Reforming Catalysts
- Primary Steam Reforming
- High Temperature Shift Catalysts
- Dry Reforming Catalysts

ABOUT COMPANY

Kharazmi Technology Development Company (Kharazmi) is founded based on research and development (R&D) in the field of heterogeneous catalysts used in industrial plants. The comprehensive and in-depth knowledge of the catalysis, process design, catalytic industrial processes and effective operating parameters on the kinetics and mechanism of the reactions, proficiency in synthesis and production of the materials and utilizing the state of the art technologies are of distinctive features of our company.

Kharazmi vision is to be among leaders of catalyst producers in the world. In this regard, Kharazmi continuously improves its R&D division with the approach to the market needs. Local market need drive us to develop versatile catalysts, especially those which are used in the chain of ammonia and methanol production in petrochemical plants, hydrogen and DRI plants. Recently, Kharazmi had implemented a dedicated production line for the recovery of base metals from industrial spent catalysts which have a great influence on the economy of catalyst production and gives us a high added value for boosting the development of our activities.

In our R&D division we employ the novel techniques and state of the art technologies to develop the new catalysts and accurately analyze and characterize the materials. Catalyst performance testing units, well-equipped analytical and catalyst synthesis laboratories along with pilot-scale synthesis and shaping units makes us unique and superior among our competitors in the market of heterogeneous catalyst.

PETRO AHOURA

Petro Pazhouhesh Ahoura

Website: www.petroahoura.com

Email: info@petroahoura.com

Phone: +98 (21) 6603 5406-8

ABOUT COMPANY

Petro Ahoura Company is a leading company to manufacture different types of laboratory equipment for the oil and gas industry and provide services for rock/fluid properties measurements and data analysis. Petro Ahoura is an expert company to provide economically viable solutions to apply different IOR/EOR recovery approaches, optimize reservoir performance, and improve oil and gas production from reservoirs.

PRODUCTS

We are manufacturer of different types of laboratory equipment for the oil and gas industry. These equipment are produced for core plug preparation, routine and special core analysis, reservoir fluid analysis and EOR/IOR evaluation purposes. All the products are designed and produced within the PPA company.

RASTA GROUP

Rasta Group Industrial
Valve Co. (PJSC)

Website: www.rastagroup.net

Email: info@rastagroup.net

Phone: +98 (21) 8830 8067

ABOUT COMPANY

Rasta Group Industrial Valve PJSC, RGIV, Company, the manufacturer of Control Valve & Choke Control Valves, which is within the approved vendor list of NIOC, is honored to express that it has been able to perform a valuable share in the supply of Control Valves for Oil, Gas, Petrochemical and Power Projects.

RGIV head office in Tehran and its work shop in Hashtgerd Industrial City, aiming the Design, manufacturing, assembling and testing of the Control Valves.

RGIV is now within the approved manufacturer for the Control Valves by the following companies:

- National Iranian South Oil Company (NISOC)
- Manufacturing Support and Procurement Kala Naft Tehran
- National Iranian Oil Engineering and Construction Company (NIOEC)
- Pars Oil & Gas (POGC)
- Iranian Offshore Oil Company (IOOC)
- Iranian Central Oil Fields Company (ICOFC)
- National Iranian Oil Products Distribution Company (NIOPDC)
- Petrochemical Industries Development Management Company (PIDMCO)
- Arvandan Oil and Gas Company (AOGC)
- Oil Industries Engineering and Construction (OIEC)
- MAPNA
- MPAN BOILER

PRODUCTS

Glob Control Valve - Size: ½" to 24"

Butterfly Control Valve - Size: 3" to 64"

Ball Control Valve – Size: ½" to 12"

Gate Control Vave

On –Off Valve (Ball and Gate)

MOV (Ball & Gate)

RG Positioner

SARV Steam Reforming Catalysts

Product Application: Steam reforming of natural gases and other light hydrocarbons

General Description: A nickel based catalyst supported on calcium aluminates

PRODUCTS

- Pre-Reforming Catalyst
- Steam Reforming Catalyst
- Secondary Reforming Catalyst
- Autothermal Reforming Catalyst
- Methanol Synthesis Catalyst
- HTSC Catalyst
- LTSC Catalyst
- Hydrogen Removal Catalyst
- High Active Midrex Catalyst
- High Active PERED Catalyst
- Semi Active DRI Catalyst
- Inert DRI Catalyst
- Endothermic Gas Generation Catalyst
- Ammonia Cracking Catalyst
- Paraffin Dehydrogenation Catalyst
- Platforming Catalyst
- CCR Catalyst
- Sulfuric Acid Synthesis Catalyst
- Acetylene Hydrogenation Catalyst
- GTL Catalyst

ABOUT COMPANY

SARV Oil & Gas Industries Development Company (SARV) is the first producer of high performance catalysts in Iran. The company was established in 2004, basically intended to develop GTL process. We've achieved great success in GTL in both process and catalyst and established a 1-3 Barrels per day demo plant located in our factory. Since the catalytic nature of GTL process, SARV started its activities in the field of catalyst both in R&D and mass production mainly in field of synthesis gas production and Fischer-Tropsch catalyst. Due to our high quality catalyst products; we've become a leading brand in oil, gas, petrochemical and steel industries.
